

# MathFLIX CHALLENGE

## Produce Party!

Erika, Joel, Samantha, and Jamal were going to Martha's house for a picnic. They were each supposed to bring a different fruit to mix into a fruit salad. Try to figure out who brought which fruit along to Martha's picnic!

1. Erika bought her fruit in a bunch.
2. You can't eat the fruit that Joel brought whole.
3. Samantha's fruit and Erika's fruit have a similar color.
4. Jamal's fruit is much smaller than Samantha's fruit.
5. The first letter of Joel's fruit comes before the first letter of Jamal's fruit in the alphabet.
6. Martha was hungry waiting for everyone to arrive.
