Napier's Ancestors, Kin

Complete the table below using the family tree as a guide. Count how many relatives exist in each generation. A good estimate is 25 years for a new generation. John Napier's father was 16 when John, his first son, was born. Napier's first child, Archibald, was born in 1576.

Year	Generation	Number of relatives
1425	Great-Great-Great-Grandparents	
	Great-Great-Grandparents	
	Great-Grandparents	
	Grandparents	
1525	Parents	
1550	Napier
