

# COUNTDOWN Challenge

## Complementary/Supplementary Angles: Definitions

Complimentary: containing a compliment which is something good said about someone - ex. "The principal's complimentary remark was for the student's good work"

Complementary: completing or making perfect - ex. "The four seasons are complementary parts of the year"

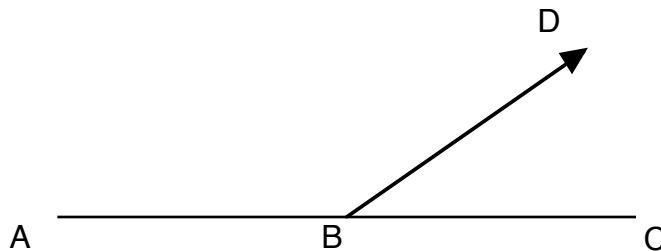

Complementary angle: two angles which together form an angle of 90 degrees

-----

Supplementary: additional; added to supply what is lacking

ex - "in addition to our mathematics textbook we have supplementary books in our classroom"

-----

Supplementary angle: two angles which together form an angle of 180 degrees
