

MathFLIX CHALLENGE

COIN GAME

The object of the COUNTDOWN COIN Game is to be the last player to remove a penny.

Coin Game Rules (2 players)

1. Place 10 pennies in the circle below.
2. Decide which player will go first.
3. The first player begins the game by removing 1 or 2 pennies. If 2 pennies are removed, they must be next to each other with no space in between.
4. The second player takes a turn by removing 1 or 2 pennies. If 2 pennies are removed, they must be next to each other with no space in between.
5. The two players continue to take turns removing pennies.
6. The player who removes the last penny is the winner.
