MathFLIX CHALLENGE

Sum of Consecutive Odd Numbers = Square Numbers!

There are many different ways to classify numbers. One way is by using shapes. The sum of consecutive odd numbers forms square numbers. Use the chart below to illustrate this interesting math truth.

#	Square #	Sum of odd #	# of unit squares colored	Color
1	1	1	1	white
2	4	1 + 3	3	grey
3		1 + 3 + 5	5	black
4				green
5				
6				
7				
8				
9				
10
